

SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

COMPANY ADDRESS:

RedEagle International LLC
5143 S. Lakeland Drive - Suite 4
Lakeland, FL 33813

EMERGENCY TELEPHONE NUMBERS:

(800) 424-9300 (CHEMTREC, transportation and spills)
(800) 222-1222 American Association of Poison Control Centers

PRODUCT NAME:

MESOTRIONE 40% SC

CHEMICAL NAME:

2-[4-(methyl sulfonyl)- 2-nitrobenzoyl]-1,3- cyclohexanedione
methyl-5-oxo-1H-1,2,4-triazole-1-yl] phenyl]-methane sulfonamide

PRODUCT USE:

Herbicide

PRODUCT CODE:

EPA Reg. No. 85678-77

SECTION 2 - HAZARDS IDENTIFICATION SUMMARY

This chemical is considered hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200

Opaque beige liquid

HEALTH HAZARDS: WARNING. Harmful to toxic if swallowed, Causes mild skin irritation.

ENVIRONMENTAL HAZARDS: Toxic to aquatic life.

**HAZARD STATEMENTS:**

- May cause damage to organs through prolonged or repeated exposure

SECTION 3 – COMPOSITION, INFORMATION OF INGREDIENTS

COMPONENT	PERCENTAGE	CAS No.
2-[4-(methyl sulfonyl)- 2-nitrobenzoyl]-1,3- cyclohexanedione methyl-5-oxo-1H-1,2,4-triazole-1-yl] phenyl]-methane sulfonamide	40	104206-82-8
Propylene Glycol	8	57-55-6
Other ingredients	52	n/a

SECTION 4 - FIRST AID MEASURES

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: SPEED IS ESSENTIAL. Immediate medical attention required. If available give an absorbent such as activated charcoal, bentonite, or Fuller's Earth. Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by poison control center or doctor. Have a person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air, if person is not breathing, call 911 or an ambulance, then give artificial respiration. Do not use mouth-to-mouth method. Use pocket mask with one-way valve or other

proper respiratory medical device. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Treatment is controlled by removal of exposure followed by symptomatic and supportive care. Have a product container or label with you when calling a poison control center or doctor, or going for treatment.

SECTION 5 - FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Use foam, dry chemical, carbon dioxide, or water spray when fighting fires involving this material.

FIRE AND EXPLOSION HAZARD Evacuate area. When heated, vapors dangerous to health may be formed.

FIRE FIGHTING INSTRUCTIONS: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Evacuate area and fight fire from a safe distance. Dike and collect water used to fight fire to prevent environmental damage due to run off. This material is toxic to aquatic life with long lasting effects.

FIRE FIGHTING EQUIPMENT: Full firefighting turn-out gear (Bunker gear) including self-contained breathing apparatus with full face piece.

HAZARDOUS COMBUSTION PRODUCTS: Product will emit toxic fumes when heated.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

IN CASE OF SPILLS OR LEAKS: Stop the source of the spill if safe to do so. Contain the spill to prevent further contamination of soil, surface water, or ground water. Clean up spills immediately. Observe precautions in Section 8 of this document. Keep unnecessary and unprotected personnel from entering.

SMALL SPILL: Absorb small spills with sand, vermiculite, or other absorbent inert ingredients. Place material in a container for proper disposal.

LARGE SPILL: Dike spill using absorbent or impervious material such as clay or sand. Recover and contain as much free liquid as possible for reuse or disposal. Allow absorbed material to solidify and scrape up for disposal. After removal, clean contaminated area thoroughly with water. Pick up wash liquid with additional absorbent for disposal. Minimize use of water to prevent environmental contamination.

CAUTION: Minimize use of water to prevent runoff into municipal sewers or other open bodies of water and minimize environmental contamination. Be sure to isolate any contaminated water. Contact your State Pesticide or Environmental Control Agency, or nearest EPA Regional Office for guidance on disposal.

SECTION 7 - HANDLING AND STORAGE

KEEP OUT OF REACH OF CHILDREN!

HANDLING: Use only in a well-ventilated area. Do not inhale mists or vapors. Wear proper safety equipment specified in Section 8 when mixing, loading or otherwise handling concentrate. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing if pesticide gets inside clothing. Then wash thoroughly and put on clean clothing. Remove PPE after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Persons with a history of skin sensitization should not be used in any process involving this material. Do not reuse container.

STORAGE: Keep pesticide in original container. Keep container tightly closed when not in use. Store in a locked storage area. Avoid cross contamination with other pesticides or fertilizers during handling and storage. Store in a cool, dry place. Do not contaminate water, feed, or food by storage and disposal. Do not store diluted spray.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

EXPOSURE LIMITS: None established.

ENGINEERING CONTROLS: Do not breathe vapors or mists. If specific use conditions create an environment for excessive exposure, use proper ventilation. Facilities storing or utilizing this material should be equipped with activated charcoal, an eyewash facility, and a safety shower.

PERSONAL PROTECTIVE EQUIPMENT:

EYE PROTECTION: Protective eyewear. An emergency eyewash or water supply should be readily accessible to work area.

SKIN PROTECTION: Wear coveralls over long-sleeved shirt and long pants, chemical resistant shoes plus socks, and chemical-resistant gloves made of any waterproof material. Wear a chemical resistant apron when cleaning equipment, mixing, or loading. For overhead exposure wear chemical-resistant headgear. An emergency shower or water supply should be readily accessible to work area.

RESPIRATOR: Normally not required. If vapors or mists may exceed acceptable levels, wear NIOSH approved air-purifying respirator approved for pesticides. If there is a potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection, use positive-pressure, air-supplied respirator.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Opaque beige to tan liquid
Odor:	characteristic
pH:	2.40-3.75
Boiling Point:	No data available
Freezing Point:	-19 °C
Flash Point:	No data available
Evaporation Rate:	No data available
Flammability:	Not applicable
Flammability Limits:	No data available
Vapor Pressure:	~17 mmHg @ 20°C
Vapor Density:	No data available
Relative Density:	1.18-1.20 (9.85-10.0 lb/gal)
Solubility: Partition	Dispersible in water
Coefficient:	No data available
Auto-Ignition Temperature:	Not applicable
Decomposition Temperature:	No data available
Viscosity:	No data available
Specific Gravity:	No data available
Bulk Density:	No data available

SECTION 10 - STABILITY AND REACTIVITY

CHEMICAL STABILITY:	Stable under normal handling and storage conditions.
HAZARDOUS REACTION/POLYMERIZATION:	Under normal storage conditions and use, hazardous reactions will not occur.
CONDITIONS TO AVOID:	Extreme temperatures.
INCOMPATIBLE MATERIALS:	Avoid strong oxidizers, strong acids, strong bases, heat, and sources of ignition.
HAZARDOUS DECOMPOSITION PRODUCTS:	Oxides of nitrogen, carbon, sulfur, and hydrogen chloride.

SECTION 11 - TOXICOLOGICAL INFORMATION**ACUTE TOXICITY:**

Oral LD ₅₀ (rat):	1750 mg/kg
Dermal LD ₅₀ (rat):	> 5,000 mg/kg
Inhalation LC ₅₀ (rat):	> 5.05 mg/l
Eye irritation (rabbit):	Not an irritant
Skin irritation (rabbit):	Slight
Sensitization:	Not a contact sensitizer

CARCINOGENICITY: No component of this product present at 0.1% or greater is listed by OSHA, IARC, NIOSH or NTP.

SECTION 12 - ECOLOGICAL INFORMATION

ENVIRONMENTAL SUMMARY: Toxic to aquatic life. Do not apply to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not apply where runoff might occur. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when cleaning equipment or disposing of equipment wash waters or rinsate.

MOBILITY: Potential to leach into ground water.

AQUATIC TOXICITY:

Rainbow Trout (96-hour LC50 >120 mg/L
Bluegill (96-hour LC50): > 120 mg/L
Daphnia (48-hour EC50): > 900mg/L
Algae (EC50): 3.5 mg/L

AVIAN TOXICITY

Bobwhite Quail (LD50): >2000mg/kg
Mallard Duck (Dietary LD50): > 5200 mg/kg

OTHER TOXICITY

Bees (oral LD50): > 11 µg/bee
(contact LD50): > 9.1 µg/bee

SECTION 13 - DISPOSAL CONSIDERATIONS

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide waste may be acutely hazardous. Improper disposal is a violation of Federal law. If this waste cannot be disposed of according to label instructions, contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office.

CONTAINER DISPOSAL: Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container one-fourth full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

SECTION 14 - TRANSPORT INFORMATION**DOT SHIPPING DESCRIPTION:**

US DOT (shipped by land):

Containers < 119 Gal: Not regulated by DOT

Containers > 119 Gal: UN 3082, Environmentally Hazardous substance, Liquid N.O.S. (Mesotrione),9, PG III
Emergency Response Guide: 171

Marine Pollutant: Yes

IMDG (shipped by vessel): UN 3082, Environmentally Hazardous substance, Liquid N.O.S. (Mesotrione),9, PG III, Marine Pollutant

IATA (shipped by air): UN 3082, Environmentally Hazardous substance, Liquid N.O.S. (Mesotrione),9, PG III

SECTION 15 - REGULATORY INFORMATION
--

EPA/FIFRA: WARNING
CERCLA REPORTABLE QUANTITY: Not listed
SARA
302/304: Not applicable
311/312: Acute health; Chronic health
313: Not applicable
TSCA: Exempted - solely for FIFRA regulated use.

CALIFORNIA PROP 65: WARNING: This product does not contain substances known to the State of California to cause cancer and/or reproductive/developmental effects

SECTION 16 - OTHER INFORMATION

DISCLAIMER AND LIMITATION OF LIABILITY: The information presented herein is based on available data from reliable sources and is correct to the best of our knowledge. It does not relate to the use of such materials in combination with any other material or process. RedEagle International LLC makes no warranty, express or implied, regarding the accuracy of the data or the results obtained from the use of this product. RedEagle International LLC disclaims all liability for reliance on such information. Nothing herein may be construed as recommending any practice or any product in violation of any law or regulations. The user is solely responsible for determining the suitability of any material or product for a specific purpose and for adopting any appropriate safety precautions.

This Safety Data Sheet (SDS) serves different purposes than and DOES NOT REPLACE OR MODIFY THE EPA APPROVED PRODUCT LABELING (attached to and accompanying the product container). This SDS provides important health, safety, and environmental information for employers, employees, emergency responders and others handling large quantities of the product in activities generally other than product use, while the labeling provides that information specifically for product use in the ordinary course. Use, storage and disposal of pesticide products are regulated by the EPA under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through the product labeling, and all necessary and appropriate precautionary, use, storage, and disposal information is set forth on that labeling. This data sheet is not a guarantee of safety. Users are responsible for ensuring that they have all current information necessary to safely use the product described by this data sheet for their specific purpose.

It is a violation of federal law to use a pesticide product in any manner not prescribed on the EPA approved label.
